NOTES FROM TAIPEH.

-(By-Our Own Correspondent.) " TAIPER, Feb. 10.

The country at prosent is busy gathering in the sugar cane crop and the mills are working their hardest. The rice fields have mostly been ploughed and in places the new crop is giving the ground a bright green tinge. December and January have been exceptionally wet but yesterday and to-day we have had glorious supshine which has dispelled the general sir of despon-

Of course we are a little excited over the big rise in allver which is now at 2741 and our demand selling rate on Hougkong is 981. It looks as though the Hongkong dollar will soon be on a par with the yen.

DRAMATIC ENTERTAINMENT AT ST. JOSEPH'S COLLEGE.

An interesting and enjoyable dramatic entertainment was given by students and friends at St Joseph's College on Wednesday night in aid of a fund for the purpose of defraying the cost of the new playground and pathway.

The piece presented was the "Prodigal law student" and was well performed. Mr P. H. Prevost took the part of the law student, and he was distinctly good. In fact each player could be highly praised for elecution and in this way the performance had, the double object in view of providing funds and teaching those who took part the art of speaking correctly, Comio songs were also contributed by Mr A. Baptista and Mr L. d'Aquino, while planoforte selections were given by Professor Baptists. The band of the Sociedade Philharmonica was also present and pleasingly rendered a number of selections. The performance is to be repeated on Friday pight.

COMPANY MEETING.

Toerangie Rubber Co., Ltd.

An extraordinary general meeting of the Teerangie Rubber Co., Ltd., was held at the office of Mesers Lowe, Bingham and atthews, St. George's -Building, on Wednesday afternoon, for the purpose of Investment Trust Limited or its norduces."

Mr C. D. Wilkinson presided and there a fresh meeting when the time is really were present Messrs Gask, Willis, F. Loureiro, Evan Ormiston, M. W. Slade, N. F. Blanch, and Mr E. A. M. Williams, of Mesers Lowe, Bingham and Matthews! The Chairman said :-- Gentlemen, -- The circular accompanying the notice convening this meeting serves to explain to you the reason why the meeting was colled. It being most undesirable that we should 472 again be placed in the same uncertain position as that in which we have been left for the best few, months by the U.L.P.C. and with the knowledge we possessed that the shareholders here would be very of the notice? reluctant to pass may resolution to accept an offer which they were not assured was binding, a tele ram was sent off to Mr Gray last Wednesday to the effect that the members would insist upon recelving a binding offer before considering it. In answer to this, a telegram has been received from Mr Gray touthe effect that the offer of the Rubber Investment Company is a firm offer, from which it is to be gathered that the constitution that Company renders it unnecessary, for general meeting of the Company to confirm an offer made by its representatives. That being so, it may be assumed that we are in position to conclude a contract with the R.I.T. upon the terms of their offer should we think fit to do so. But, in giving the matter serious consideration, and after ascertaining the views of several principal shareholders, your directors came to the conclusion, that unless special circumstant s exist rendering the proposed connection with the Rubbar Investment Trust highly advisable, the offer which requires the giving of

options in respect of 0,000 shares bisting for a period of five years could not be deemed acceptable. We therefore sent a further telegram to Mr Gray on Saturday to the effect that the directors were unable to recommend the offer with those options. To this telegram no answer has as yet b en received. Your directors are nevertheless of opinion that although they fael they council recommend the acceptance of the R.I.T. as it stands it is just possible that some special aircumstances may exist and may be disclosed in the letter Mr Cray doubtless wrote in confirmation of his tale gram, which circumstances may render it advisable to come to terms with the R.I.T. We therefore propose that h resolution be mored to adjourn this meeting say, for three wooks, by which time we shall no doubt have received a full explanatory letter, from hir Gray . If this be lone was should then telegrapo

In the closing minutes he was mere in prominence by three strong deshes for the line, two of which were successful, The centres, Augus and Pearson, have been much blamed for selfishness and individual play; this is hardly fair criticism, for Pearson in particular played excedingly well to Will, until the latter had so proved his scoring ability that the Frenchmen started to mark the wing nem, much more closely. This, with their sdvantage speed, the Frenchmen were able to do most successfully, and thereafter the Scots centres, were seldom able to draw the defence before parting with the ball to the wing: In attack, Angus was not prominent, but his tackling was above reproach. After a doubtful start, Hums and Gunn put. in a capital afternoon's work. Hume's. passing was very good, and Gunn had a number of his typical breaks through. Effective as they were, it must be rememcumbination and good handling. Some of bered that they had the great advantage their former lack of finish was to be seen, of playing behind winning forwards. Notwithstanding their disadvantage, the French halves were quite as prominent and as clover. The Sc trish forwards were quite good. Bain, Purves, and Turner cies of scrum formation, and gave each were the best, - Turner has never played so well in an International; M'Callum and Hill were also noteworthy; while the others paid their way. Now that the Championship is assured to Rangers, there is little interest left in the League; it is unfortunate that it should have been settled so early in the season just at the very time when clubs Fouth of the Border are in the midst of the fight. There is only left us the Cup Ties; preparation for these is playing havor with the teams; and we have had some very

curious results during the past week. Dundee met an eleven to whom the Ties are of no concern, -Queen's Park. It was an eleven, morsover, hungaring for a victory. The Dundonians, probably, were rather slack in view of their Tie next Saturday, and preferred the spoiling of their excellent record at Hampdon to taking any undue risks. Bellamy was the best of the attack, and his recent revival may mean a lot to the Tayside team. Aberdeen made a poor second to Rangers, who were the botter all round; only grand back play found few chances coming in his way at hy Colman and Hume, and clever goalkeeping by Greig, kept the figures to a
